

Dear Neighbor,

In an effort to reduce the increasing decline of our children's interest in the outdoors, Florida Sportsmen's Conservation Association has created an **Outdoor Youth Day**. Outdoor Youth Day is a program specifically designed to educate children to many different recreational activities available in natural areas, but more importantly, have some fun outdoors.

Our Annual Youth Day is scheduled for **February 3rd, 2024** at the Everglades Youth Camp in J.W. Corbett Wildlife Management Area. We are expecting over 1,500 children of all ages to come enjoy various activities:

Activities Include: Swamp buggy rides, Fishing, Pony Rides, Muzzle Loading shooting, 22 shooting, Canoe Rides, Archery, Airboat rides, FWC Demonstration and conservation exhibits..

The F.S.C.A. cannot financially take on a task of this size alone, therefore we are asking for your help. We have designed Youth Day to be as low cost as possible to the children of our community, so we are asking that our business and community leaders pitch-in. We are a 501c-3 Corporation; so all donations are fully tax deductible.

We have worked hard this past year with SFWM helping to ensure their lands will have as many recreational opportunities as possible. We continue to participate in FWC sponsored Youth Hunting Programs. This program is organized by concerned volunteers and needs financial support to continue.

We would like to thank you in advance for your generous support. We look forward to you and your family joining us on this exciting day of fun and adventure.

Sincerely,
Your 2024 FSCA Chairperson's

Terrylynn Boatwright
